Enjoy the convenience of fresh and delicious meals prepared in our Kitchen using authentic Italian recipes, handed down from three generations. Our menu items deliver great taste and quality ingredients with no additives or preservatives. We also feature the area's largest selection of gluten-free pastas and prepared meals.

In store, we offer a wide variety of both fresh and frozen meals, sauces and other quality products. Be sure to check out our selection of food items direct from Italy.

Antipasto translates to "before the meal", similar to an appetizer or starter. However its main purpose is to extend the meal.

Traditional European dining is nothing like the fast-paced meals we most often consume today. Instead, food is enjoyed slowly, and is only one part of the dining experience. The other part is good conversation. A typical meal is meant to build and maintain relationships with friends and family. We hope that our meals will be enjoyed while you spend more quality time with your friends and family!

Buon Appetito!
